

Foundation Update

The *2364 Leonard Birchall Pavilion Project* is the RMC Foundations Ex-Cadet effort to augment the Athletics facilities at RMC with a worthwhile project that would otherwise never be built. With 8 months to go, the challenge of this campaign is to stay committed, to meeting the target prior to turning the sod: an event expected to take place late this year.

Reunion Weekend 2007 will mark the end of fundraising for the project when attention will shift to the project's management and construction. With success in sight, the final objective in meeting our commitment to the project is to raise the final \$250,000.

This is an IDEAL project for 2007 Reunion Classes to consider for their class gifts. Apart from the recognition on the Pavilion Donor Wall for EACH and EVERY Donor, unique class plaques will recognize Class gifts. By pooling class gifts, a truly significant mark can be made at RMC.

Congratulations and many thanks to the Old Brigade - the first to commit to raising \$100,000 towards this campaign by Reunion Weekend 2007

\$400,000 from the Class of 1966 • \$24, 000 from the Class of 1960
\$30,000 from the Class of 2001
Other Committed Classes: 1967 • 1982 • 1987
